### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary Serbin on 10/31/2007.

The application has been amended as follows:

Bracketed text signifies deletions and underlined text signifies insertions.

**Claim 28 has been amended as follows:**

28. (currently amended). A method of playing a game comprising the steps of:

a) providing a plurality of striking spheres, with each player receiving at least one sphere having a visible figure associated with it;

b) providing an indicia on a substrate, the indicia [associated with the visible figures of the respective ones of the plurality of spheres] describing a value of its corresponding visible figure;

c) providing a random number generator that comprises at least one die;

d) placing a first sphere [one of the plurality of spheres] inside a defined playing field; [and then]

e) a player physically striking the first sphere inside the playing field with a second sphere [one of the plurality of spheres], wherein one of the two contacting spheres is the player's sphere with an associated visible figure;

f) using the random number generator to generate a number; [and then]

g) using the number together with the indicia to modify the value of the corresponding visible figure of the player's sphere [associated with the visible figure of at least one of the first and second spheres in a dependent manner to determine an outcome] ; and

h) determining an outcome of the strike from the difference between the modified value of the visible figure of the player's sphere and a value of a figure associated with an opponent's sphere.

**Claim 31 has been amended as follows:**

31. (currently amended). A method of playing a game comprising the steps of:

a) providing a plurality of spheres, with each player receiving at least one sphere having a visible figure associated with it;

b) providing an indicia on a substrate, the indicia describing a value of its corresponding visible figure [the associated with the visible figures of the respective ones of the plurality of spheres];

c) providing a random number generator;

d) placing a first sphere [one of the plurality of spheres] inside a defined playing field;

e) a player launching the second sphere from outside the playing field to physically strike the first sphere, wherein one of the two contacting spheres is the player's sphere with an associated visible figure;

f) using the random number generator to generate a number; [and then]

g) using the number together with the indicia to modify the value of the corresponding visible figure of the player's sphere [associated with the visible

figure of at least one of the first and second spheres to determine an outcome] ; and

h) determining an outcome of the strike from the difference between the modified value of the visible figure of the player's sphere and a value of a figure associated with an opponent's sphere.

2. The following is an examiner's statement of reasons for allowance: None of the cited references either alone or in combination disclose a method of providing a plurality of spheres with each player receiving a sphere with a visible figure and a value associated with it, striking a first sphere, the first sphere being a player's sphere with a second sphere, generating a random number using a random device and using the number to modify the value of the visible figure, and determining an outcome from the difference between the modified value and the a value of a figure of opponent's sphere.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
